2020 AUTHORITY BUDGET MESSAGE & ANALYSIS

TOWNSHIP OF OCEAN SEWERAGE AUTHORITY

AUTHORITY BUDGET

FISCAL YEAR: FROM: 01/01/2020 TO: 12/31/2020

Answer all questions below. Attach additional pages and schedules as needed.

1. Complete a brief statement on the 2020/2020-2021 proposed Annual Budget and make comparison to the 2019/2019-2020 adopted budget for each Revenues and Appropriations. Explain any variances over +/-10% (As shown on budget pages F-2 and F-4 explain the reason for changes for each revenue and appropriation changing more than 10%) for each individual revenue and appropriation line item. Explanations of variances should include a description of the reason for the increase/decrease in the budgeted line item, not just an indication of the amount and percent of the change. Attach any supporting documentation that will help to explain the reason for the increase/decrease in the budgeted line item.

See attached list.

2. Describe the state of the local/regional economy and how it may impact the proposed Annual Budget, including the planned Capital Budget/Program. (Example Consider New Development projects such as Housing /Commercial projects impact on the Authorities expenses or revenues)

The local economy remains strong with continued residential developments. The Authority is addressing the new developments by upgrading pump stations in their capital budget program but do not anticipate any change to the annual service charge.

3. Describe the reasons for utilizing Unrestricted Net Position in the proposed Annual Budget and or Capital Budget, i.e. rate stabilization, debt service reduction, to balance the budget, etc. If the Authority's budget anticipates a use of Unrestricted Net Position, this question must be answered. N/A

4. Identify any sources of funds transferred to the County/Municipality as a budget subsidy or a shared service payments, pilot payments, or other types of contracts or agreements (Example to provide police services to the Authority etc. and explain the reason for the transfer (i.e.: to balance the County/Municipality budget, etc.).

The Authority anticipates the Township of Ocean will request the 5% statutory contribution. The parties are also in negotiations regarding the renewal of their interlocal agreement wherein the Township provides the Authority billing services, computer technical assistance and other ancillary services as requested by the Authority, and able to be provided by Township.

5. The proposed budget must not reflect an anticipated deficit from 2020 operations. If there exists an accumulated deficit from prior years' budgets (and funding is included in the proposed budget as a result of a prior deficit) explain the funding plan to eliminate said deficit (N.J.S.A. 40A:5A-12). If the Authority has a net deficit reported in its most recent audit, it must provide a deficit reduction plan in response to this question.

There is no deficit anticipated in the 2020 budget. The Authority's 2018 audit reflected total net position of \$26,412,855. Within the total net position, the Authority reported a deficit undesignated net position of (\$5,046,555). This deficit was caused directly the Authority's compliance with the provisions of GASB 68 and GASB 75. Net pension liability (GASB 68) of \$2,890,901 plus pension deferred inflows

of \$1,360,056 less pension deferred outflows of \$806,338 resulted in a net change to unrestricted net position of \$3,443,809. Net OPEB liability (GASB 75) of \$4,538,306 plus OPEB deferred inflows of \$2,219,311 less OPEB deferred outflows of \$76,765 resulted in a net charge to unrestricted net position of \$6,689,852. The combined impact of GASB 68 and GASB 75 on the Authority's unrestricted net position on December 31, 2018 was \$10,124,661. Absent this, the Authority's unrestricted net position would not have been negative.

6. Attach a schedule of the Authority's existing rate structure (connection fees, parking fees, service charges, etc.) **if it has been changed since the prior year budget submission** and a schedule of the proposed rate structure for the upcoming fiscal year. Explain any proposed changes in the rate structure and attach the resolution approving the change in the rate structure, if applicable. (If no changes to fees or rates indicate (**Answer as "Rates Are Staying the Same"**))

The annual service charge rate schedule, which has remained unchanged since January 1, 2010, has been included in the budget package; no change to the annual service charge rate is anticipated for 2020. The Authority's connection fee schedule is attached and is recomputed annually as required by statute.

Connection fees for building affordable housing projects that consist of replacement units for demolished or refurbished units, and for which a connection fee was previously paid, are to be computed by charging the lesser of a) the reduced rate of 50% of the connection fee established in this Rate Schedule, or b) the connection fee established in this Rate Schedule, minus a credit in the amount of a connection fee previously paid for the housing units being replaced, provided the public housing authority and non-profit organization can establish the connection fee previously paid. If the amount of the previous connection fee cannot be established, the reduced rate of 50% of the connection fee established in this Rate Schedule shall apply.

GENERAL REQUIREMENTS APPLICABLE TO SEWER CONNECTION FEES

A. An applicant shall pay a sewer connection fee for each equivalent dwelling unit at the time that a sewer permit is requested, in an amount as established by the Authority's Rate Schedule in effect at the time that service is requested. All sewer connection fees shall be paid in full prior to the issuance of a construction permit for the premises.

B. Connection fees for non-residential users shall be based upon the Authority's calculation of estimated usage multiplied by the rate per gallon per day contained in the Rate Schedule. A minimum sewer connection charge for non-residential users shall be imposed, in an amount equal to the residential connection fee regardless of whether the estimated usage is less than the residential rate of usage.

C. The projected flow criteria contained in N.J.A.C. 7:14A-23.3 shall be used to determine the estimated sewer usage for non-residential uses, whenever practicable, except as set forth below. In the event that a type of use is not listed in N.J.A.C. 7:14A-23.3, the Authority shall use its best judgment in determining estimated sewer usage. The Authority may adopt additions or exceptions to the flow projections contained in N.J.A.C. 7:14A-23.3 by resolution. For the purpose of this Rate Schedule, any reference to "seat" or "person" in N.J.A.C. 7:14A-23.3 or in any projected flow criteria adopted by the Authority shall be deemed to mean the maximum permitted occupancy established pursuant to the Uniform Construction Code and/or the Uniform Fire Code.

The Authority, in its discretion, may enter into a deferred connection fee agreement under which an initial connection fee would be imposed only for those uses that are initially contemplated, and which would defer the payment of the balance of the connection fee until such time as a use for which the initial connection fee was paid is changed to a use that will generate additional sewer usage. Any connection fee paid under a deferred connection fee agreement shall be paid at the connection fee rate then prevailing at that time that payment is made.

E. A non-residential user shall be entitled to use the amount of sewer capacity, in gallons per day, that was obtained through the payment of connection fees, as well as such additional capacity actually used by its building or unit without having undergone a physical or

An application for additional capacity shall be made by any existing non-residential user whenever there is an increase in the estimated, projected sewer usage for any existing building or unit resulting from any physical or operational change for which a building permit, site plan, subdivision, variance or other municipal approval is required. A connection fee shall be charged to the user based upon the increase in estimated sewer usage associated with the aforesaid physical or operational change.

F. In the event that an application is made to reinstate sewer service to a residential structure that was previously abandoned or terminated when the prior structure was demolished or substantially totally destroyed, no additional connection fee shall be due provided that the application for service is made within seven (7) years of the date of the prior termination of service.

In the event that condition (1) herein has been satisfied, and there will be an increase in the estimated sewer usage of the building, then the applicant shall pay a connection fee only on the amount of the increase in the estimated sewer usage.
